AWARD MESSAGE

It was a great pleasure working with GETs on the NEXEN development project. We were very much surprised by the tremendous effort and dedication demonstrated by them. They started contributing to the project from day one of their assignment to the team. The team worked on Protractor and Karma development primarily. Very skillful and enthusiastic. Picked up complex concepts quickly and delivered assignments on time. All of them are very swift at work, delivered tasks with very little turn-around time. Did a very nice job in identifying critical issues which saved a lot of our time in-terms of process followed in getting a ticket to closure. The team is leaps and bounds ahead in the learning curve. Thank you all for your dedication and really appreciate your help. Good luck.
